

MEMORANDUM

March 6, 1934

TO: Messrs. Hall, Belin, Craig

FROM: Herman Radlich

Mr. Robert has made an excellent observation which I am bringing to your attention. The eye-witnesses to the Tiggit slaying have claimed that Oswald leaned against the door of Tiggit's car and spoke through the open window. Yet the photos of Tiggit's car at the scene of the murder seem to show the window closed. Only the small vent window is open (See Service Control No. 447, Case No. 37). Do any of you have information as to whether someone closed the window prior to the taking of photographs?
